

Jesus Test

INSTRUCTIVE STORIES BY
SRILA PRABHUPADA

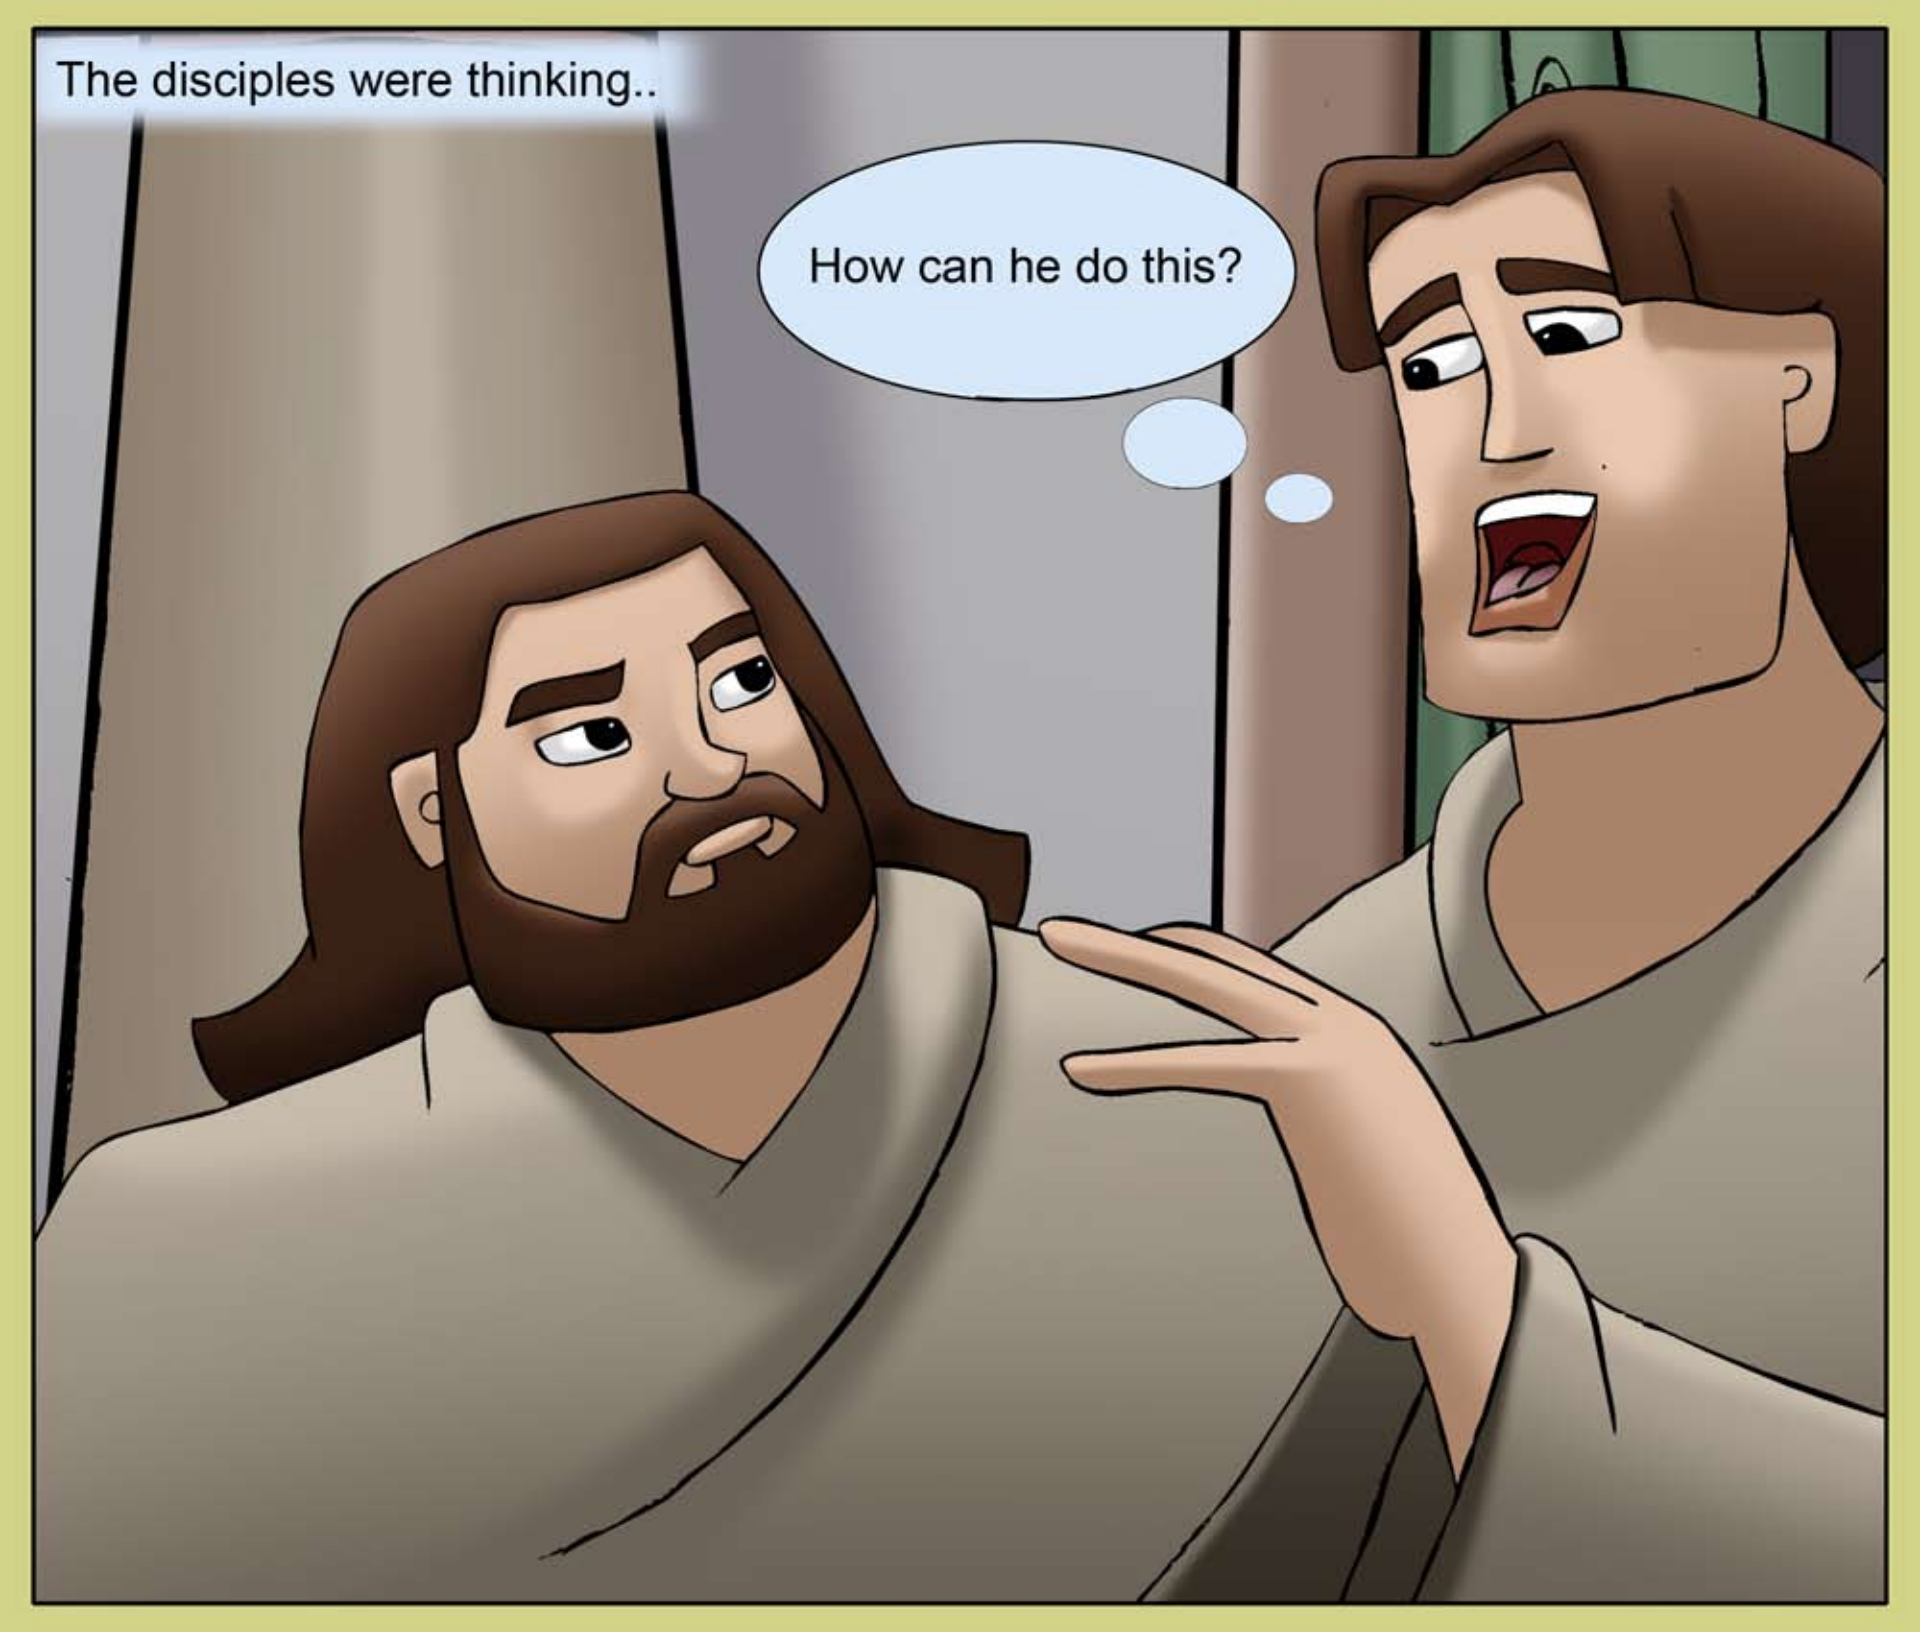

One time Jesus made one of his disciples fast. This person was very sick, and Jesus told him to fast for 48 days.

The disciples were thinking..

How can he do this?

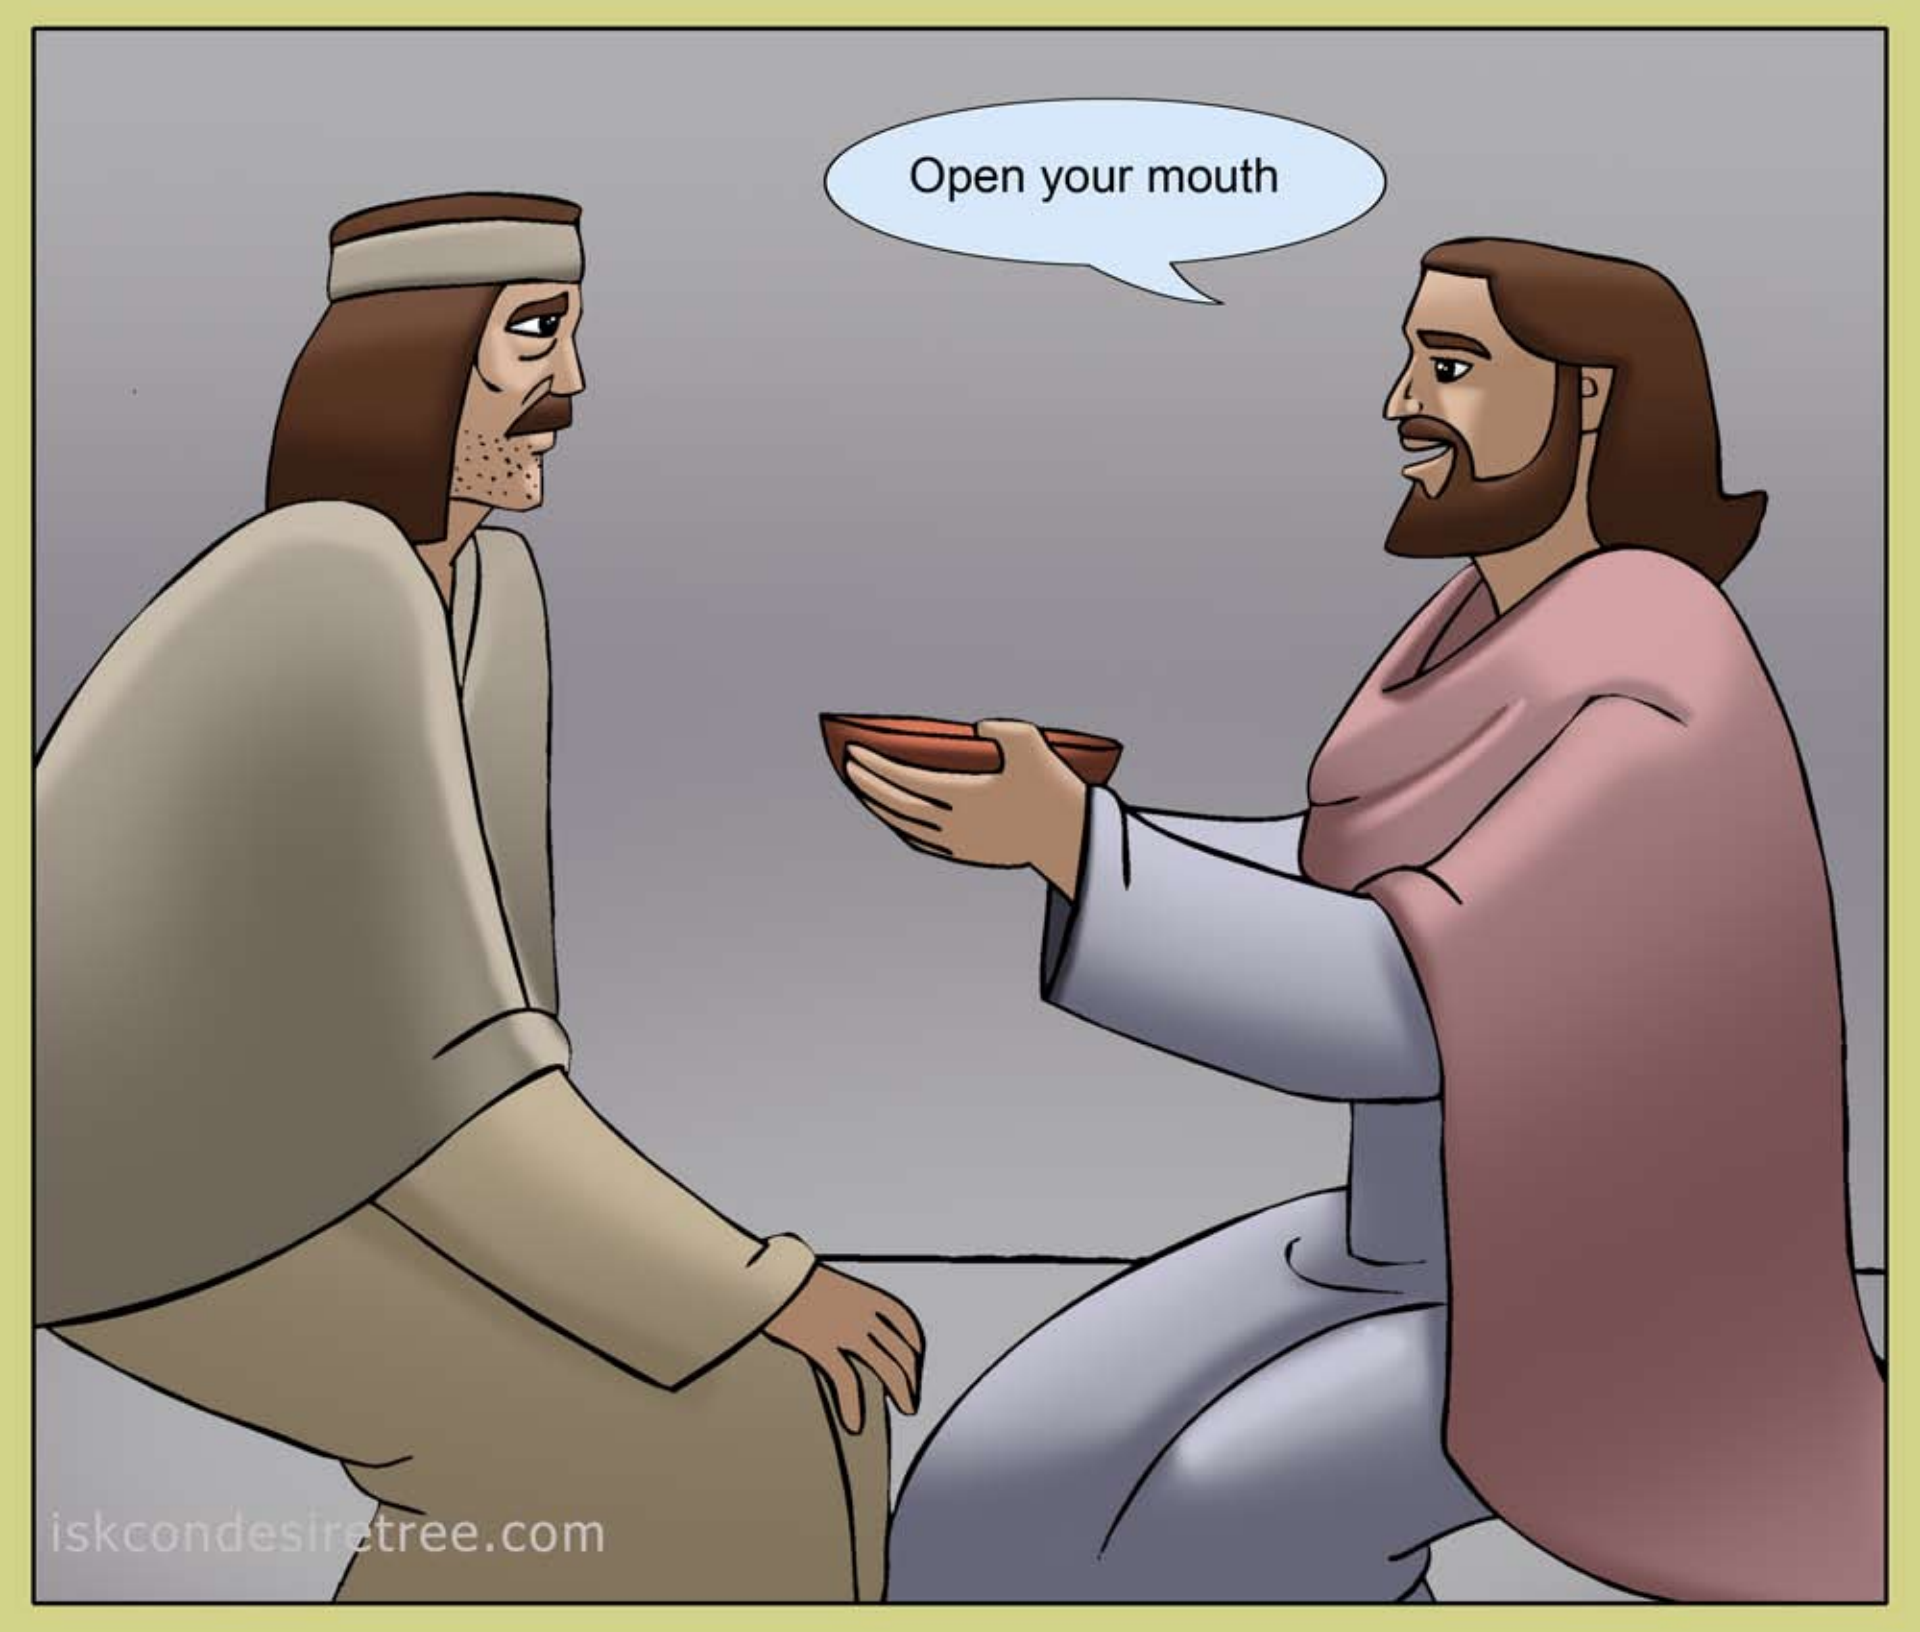

We thought he was
compassionate, but he's
making this sick man fast

After 48 days the man became very thin and weak

Jesus took a cup of warm milk with honey and a little butter on top

A cartoon illustration depicting a scene from the Bible. On the right, Jesus, with long brown hair and a beard, wearing a blue robe and a pink shawl, is kneeling and holding a small brown bowl out towards the other man. On the left, a man with a skin condition (leprosy) is kneeling. He has a white head covering and a white robe. A speech bubble above Jesus says "Open your mouth".

Open your mouth

The man was relieved

Finally I'm going
to eat something

And then when the cup was on his lip

Don't drink.
This is your test

So he was a sincere disciple. You can just imagine after 48 days, he was very much craving for the sweet aroma of the milk. The man was practically dead from starvation. But Jesus said, keep your mouth open but don't drink. Those who had faith knew that whatever Jesus said would be all good for them, so they were waiting to see the conclusion of the lesson. Others gave up faith and they went away, never to return

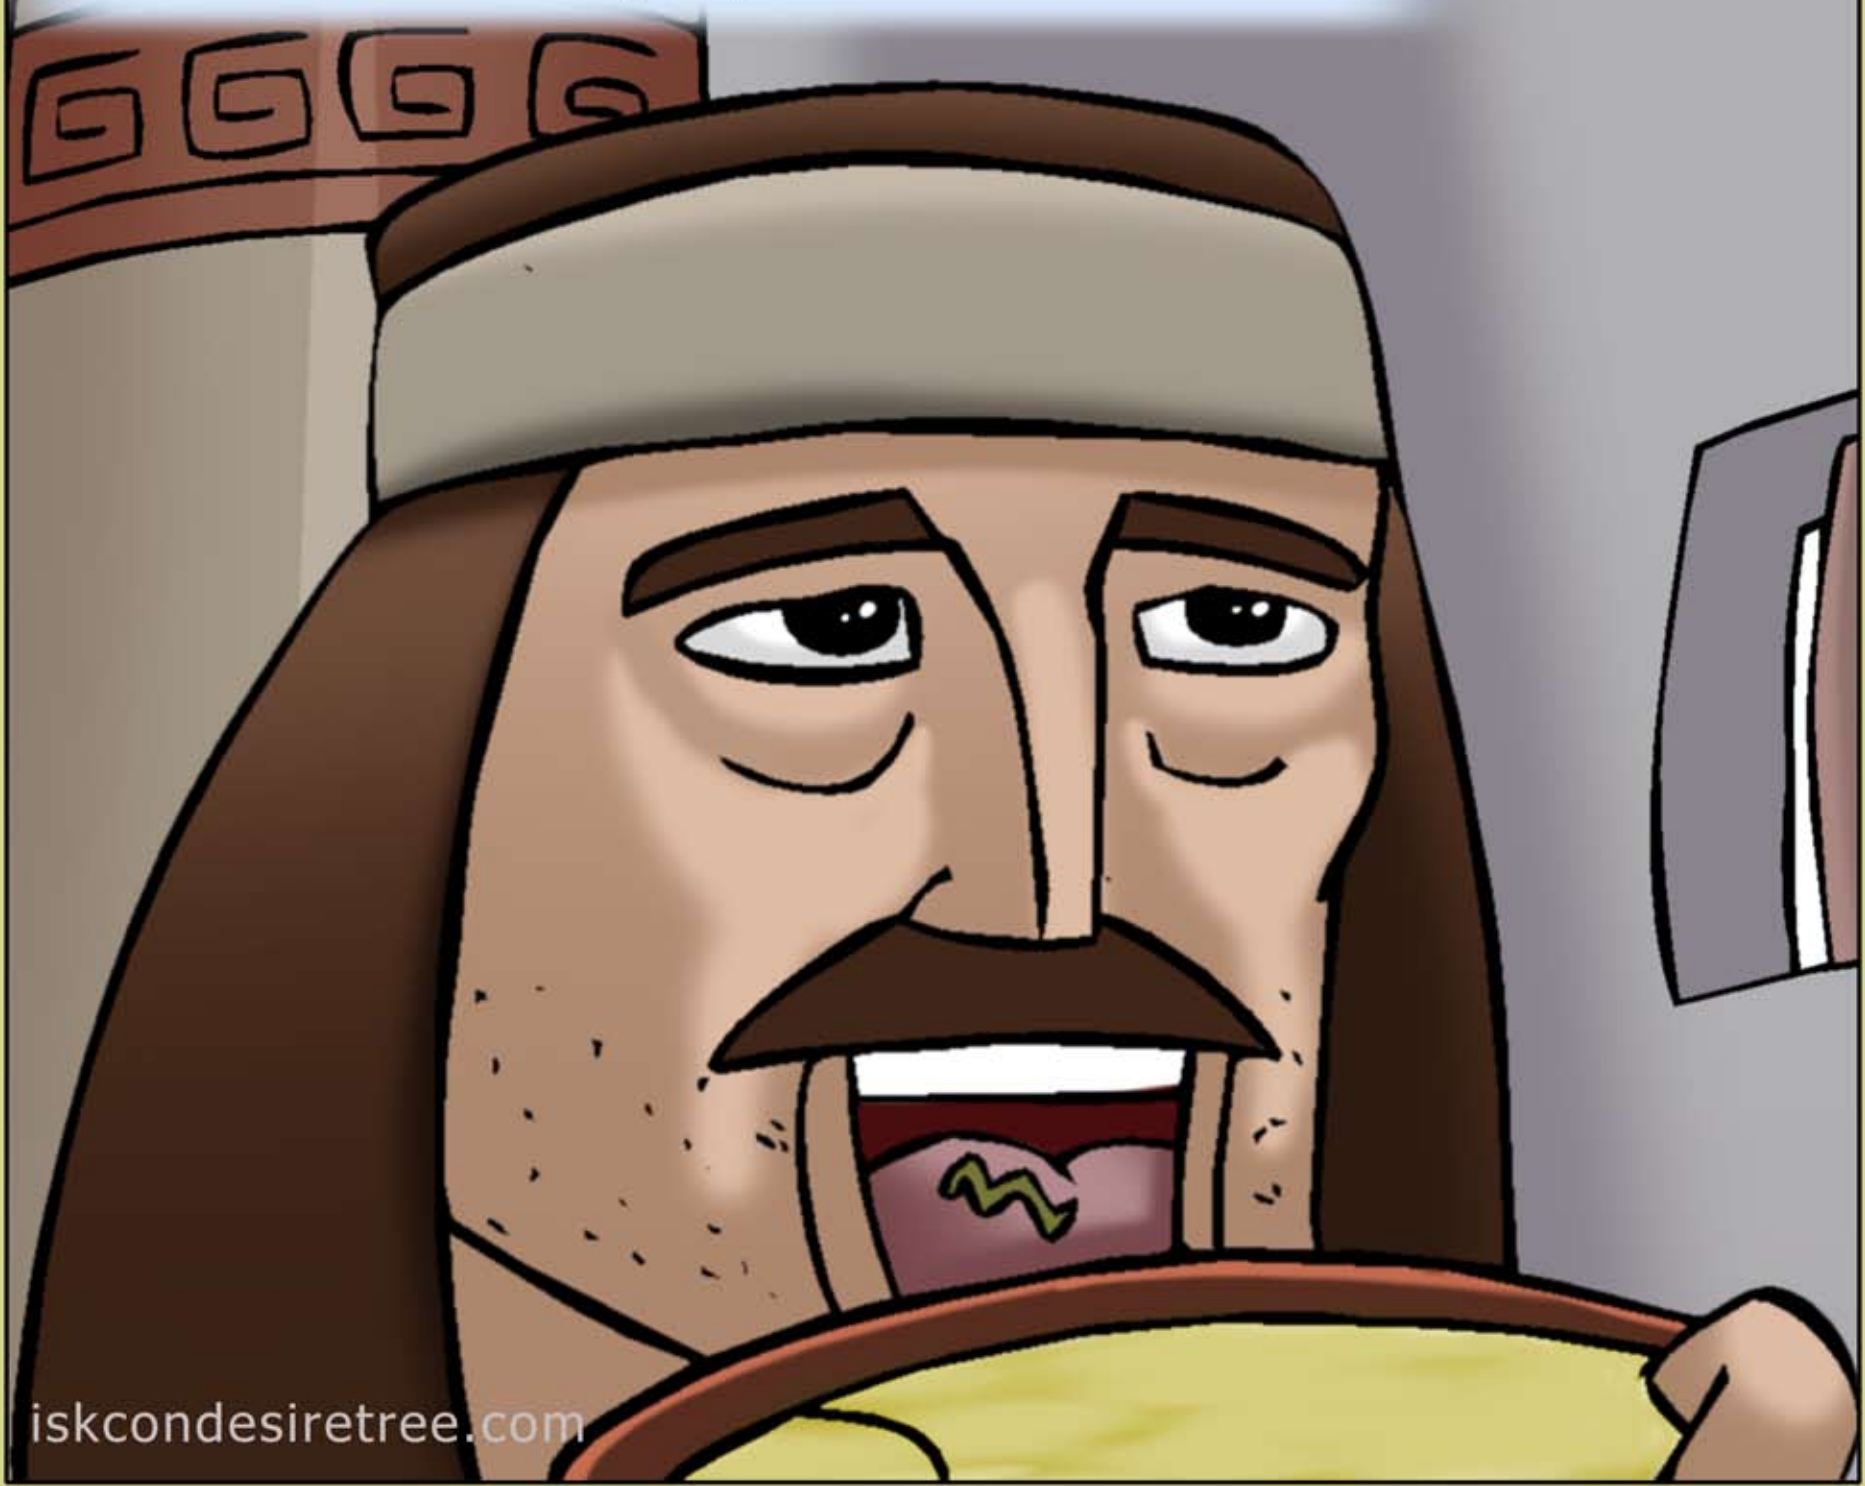

So for several minutes the man kept his mouth open and
Jesus held the silver goblet right below his lip for a long time

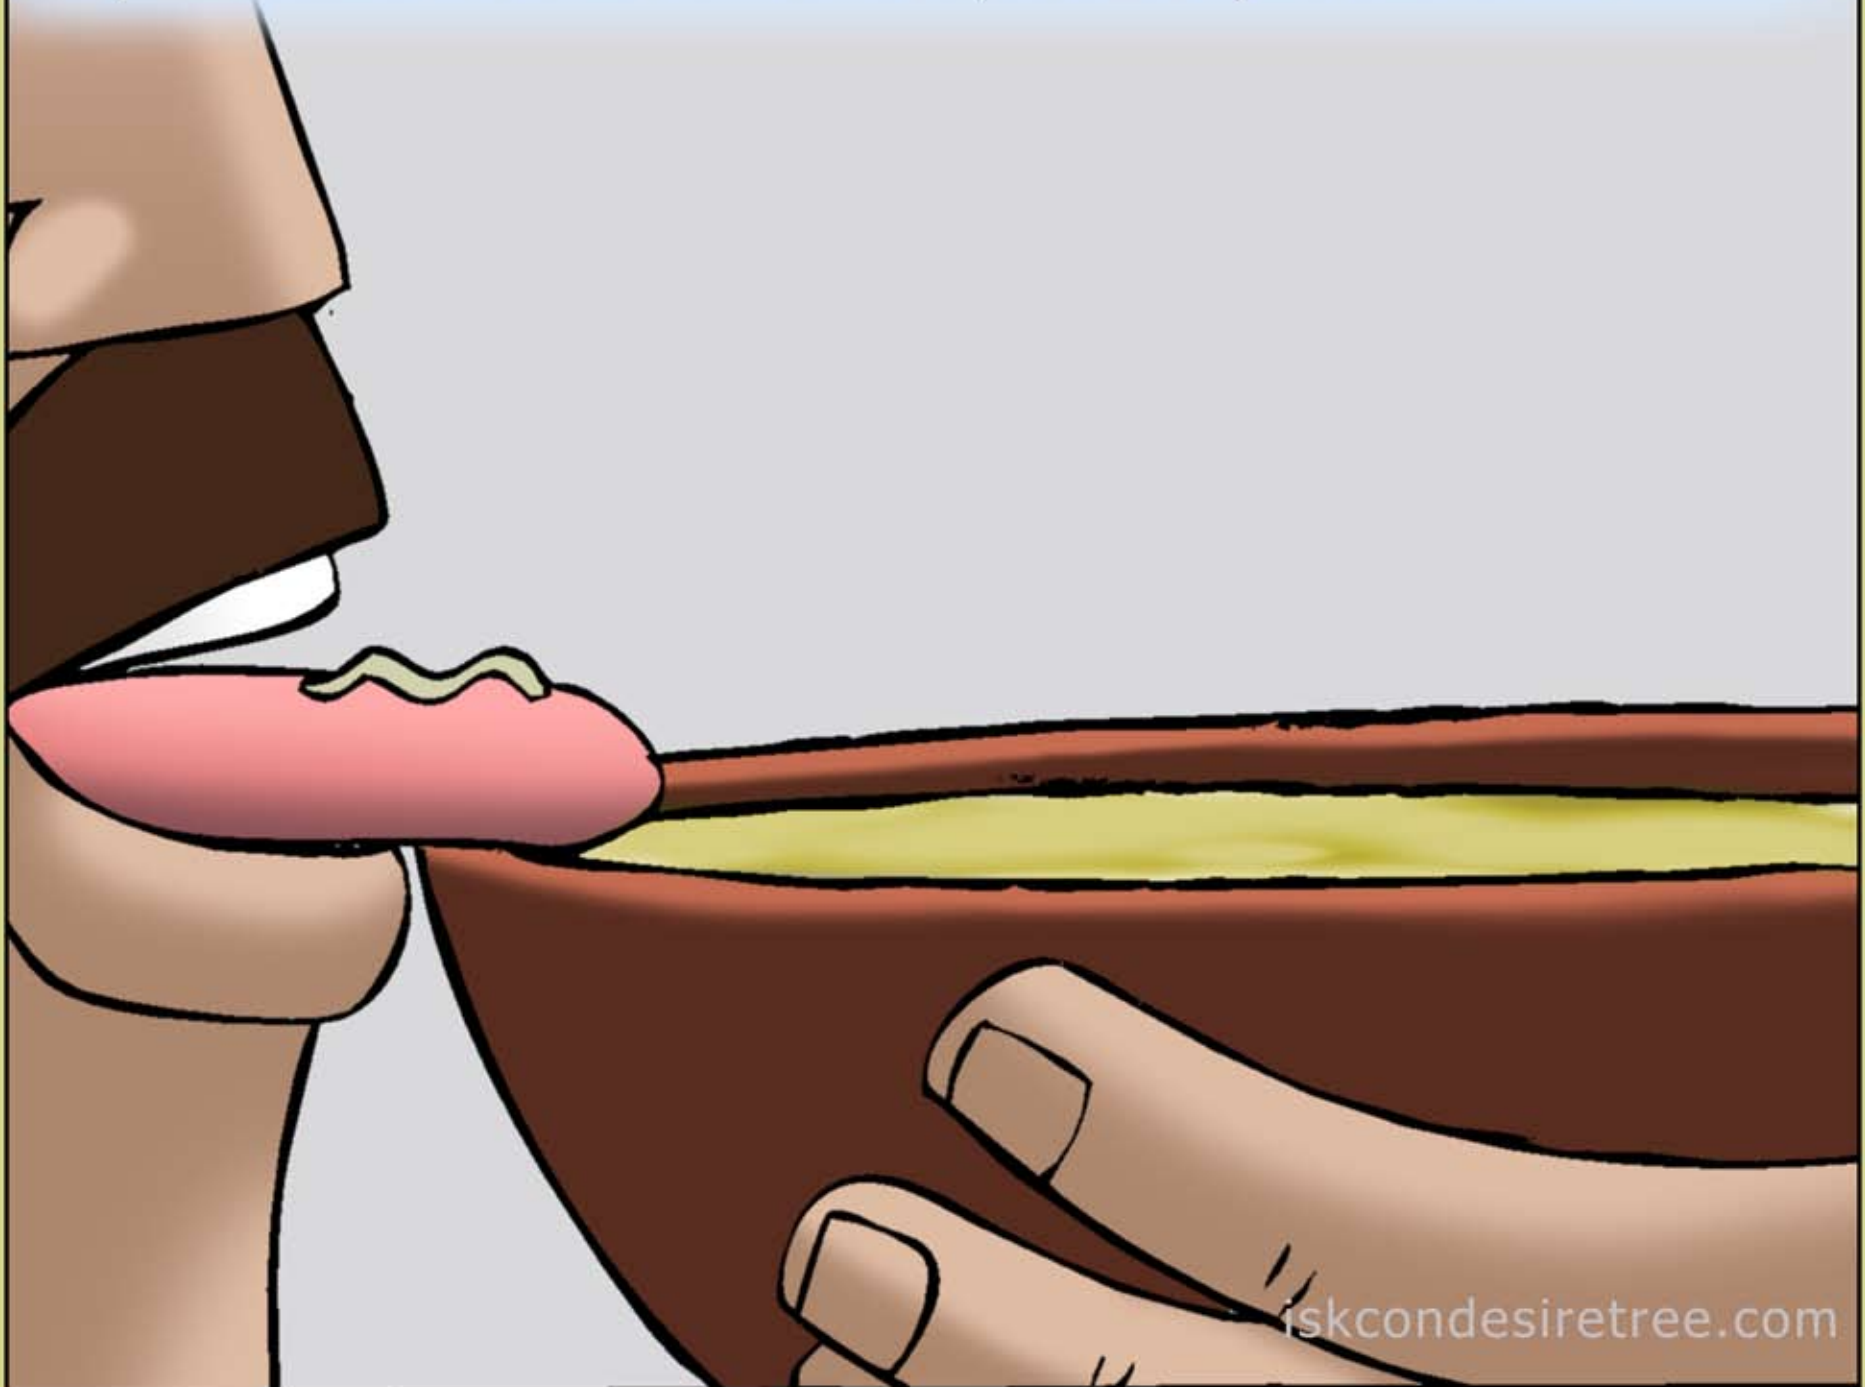

This man had been sick for years, and whatever he ate had no effect

So after about half an hour, a tapeworm came out of his mouth

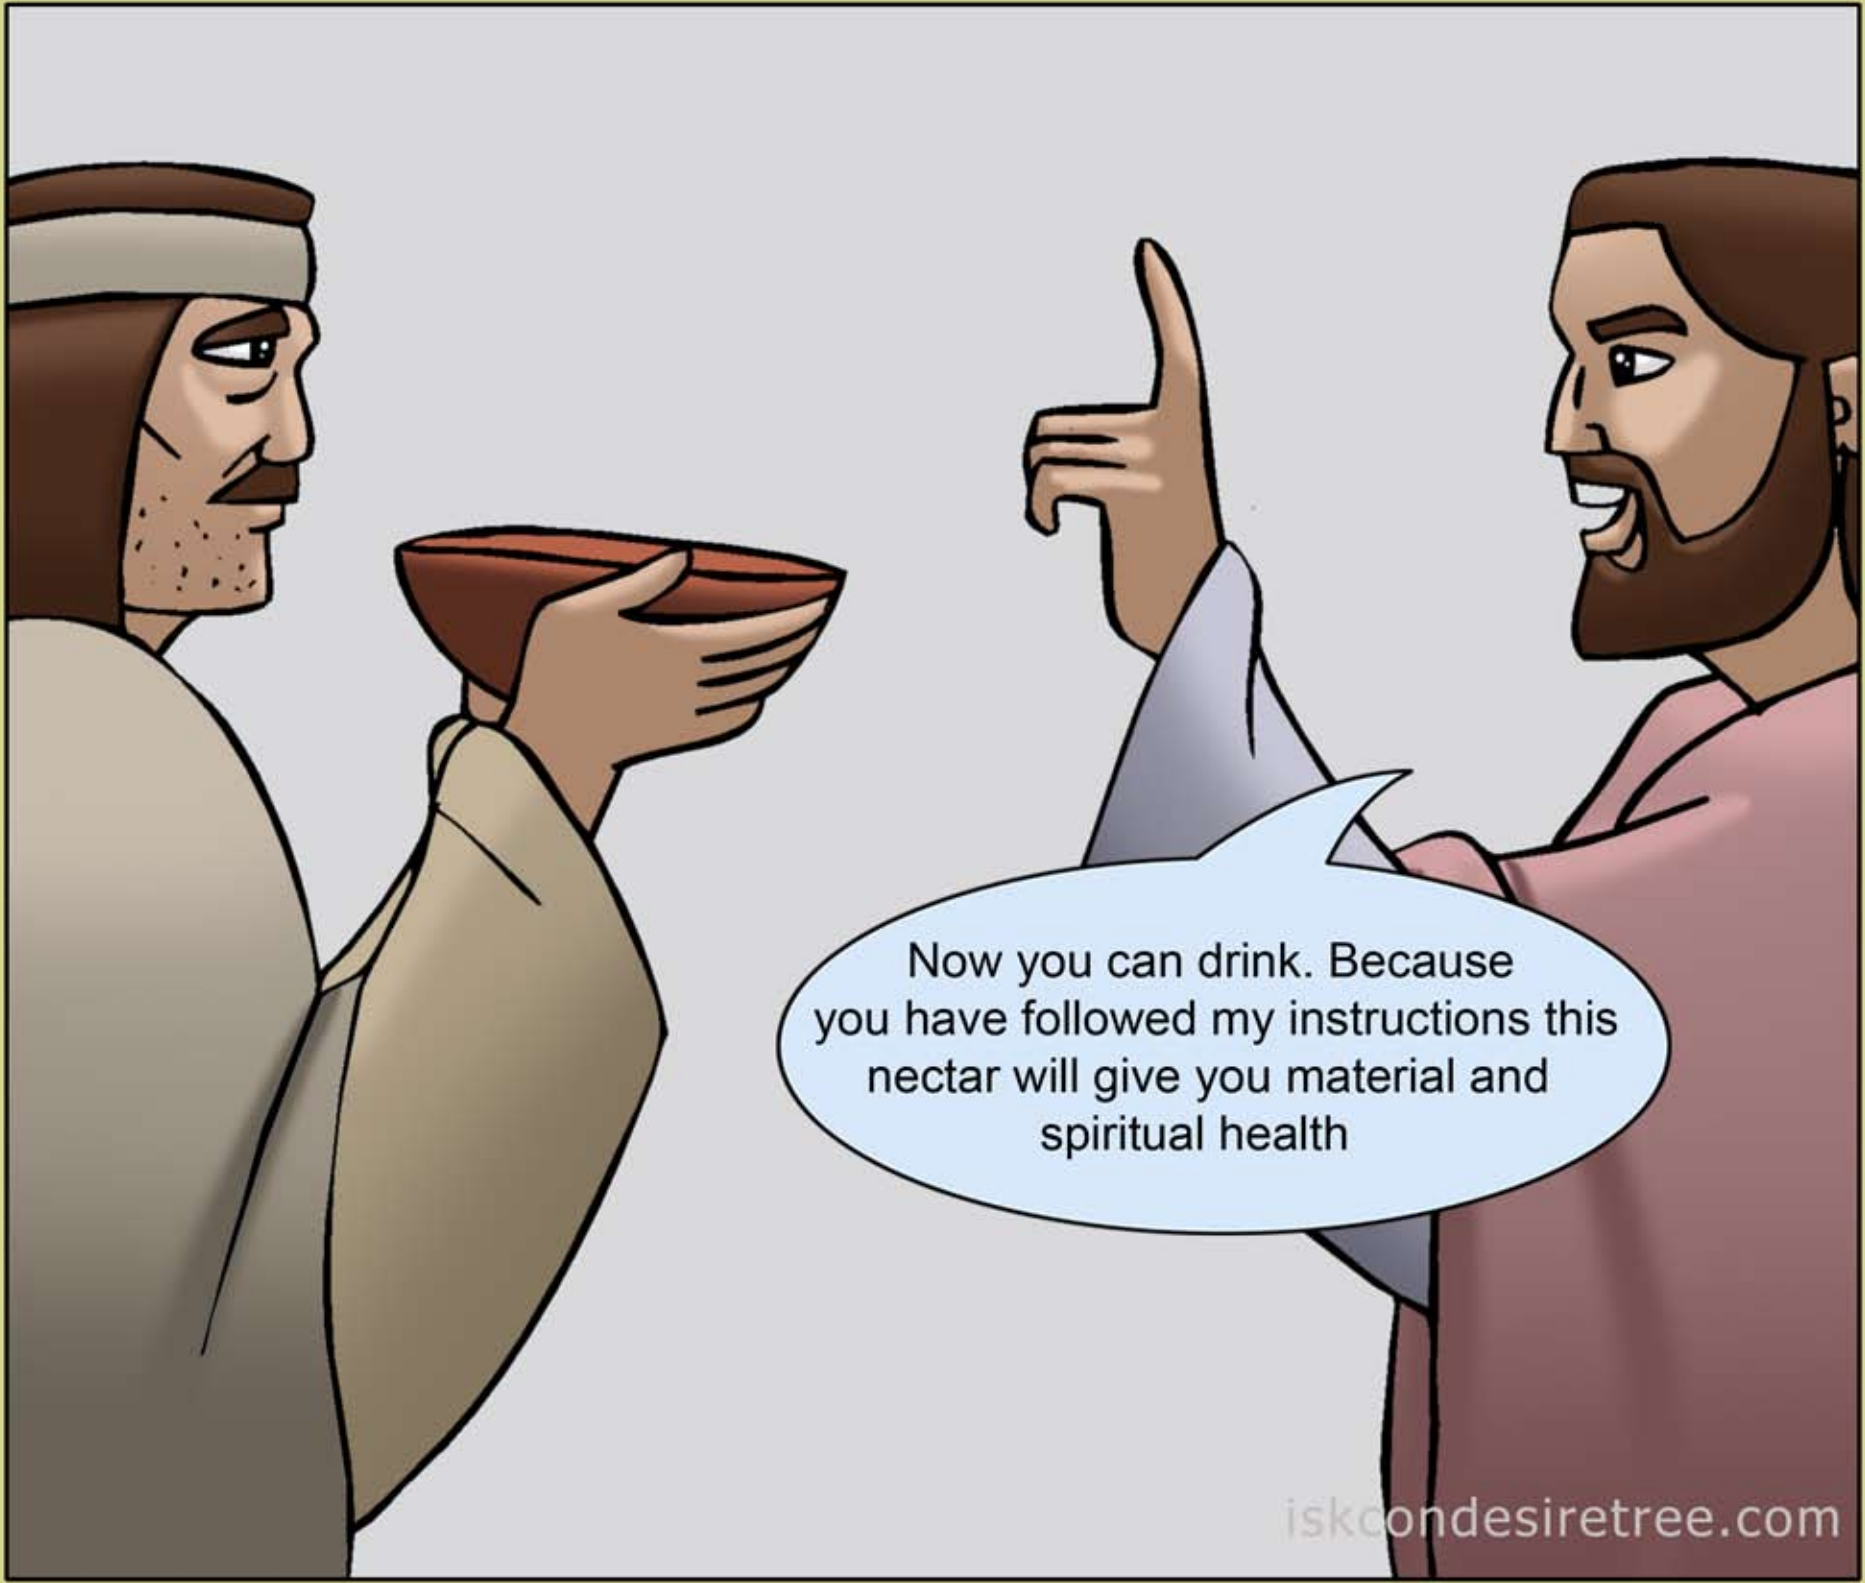

This worm who lived in his stomach used to eat whatever he would eat. Now that the man had not eaten anything for 48 days, the tapeworm was also starving. So to everyone's astonishment this worm came out, attracted by the smell of milk

Jesus took two stones and killed it

Now you can drink. Because you have followed my instructions this nectar will give you material and spiritual health
