

KNOWING THE ART

Once a man's car was broke down and he took it to a garage to fix it up.

He goes to the mechanic.

Can you help in fixing my car.

Yes sir, I can do it.

It will cost
you \$100.

If you can fix it up
I am ready to pay
you \$100.

The mechanic took a hammer and he tapped the engine, and suddenly the engine started working.

That was pretty simple! That wasn't worth \$100.

Yes it is, because if you don't know where to hit it and how to do it, then you might end up with a problem rather than driving it smoothly.

Ok. Thank you
take this \$100.

MORAL :

Prabhupada's godbrothers asked him, "How are you going to make brahmanas in the western countries? They're mlecchas, yavanas, rakshasas." And Prabhupada said, "You have to know the process, that's all. It's very simple. Hare Krsna Hare Krsna Krsna Krsna Hare Hare Hare Rama Hare Rama Rama Hare Hare."

- Srila Prabhupada.
