 $\frac{1}{2}$  past \*

Note: Most of the above is covered in Macmillan kindergarten bk.

## Nature Study of Geography

- ① what is an island, hill, lake, mountain, plain, cliff, plateau
- ② what is a map, 8 directions, what is a compass.
- ③ what is a globe, explain how earth planet fits into universe and about predominating deities  
can tell story of earth being rescued by
- ④ Names of continents + oceans (can briefly mention which G.B. preaches where. Give them the idea that earth is divided into  
Explanation of what a continent + ocean is.
- ⑤ The wheel of samsara - different species of life, placed according to their desires. Act out i.e. going from one specie to another. i.e. Teacher tells story of spirit souls journey + class assumed positions of animals in the womb, growing being killed, next body up to human, meets Guru, do

⑥ Short accounts of life and habits of

Ants  
bees  
caterpillars  
snakes

Frogs  
monkeys  
deer  
elephants  
Tortoise

Discuss what S.B., C.C. stories mention those animals or times when G. Prabhupada uses them as examples  
e.g. Tortoise withdraws limbs as yogi withdraws senses  
frog in the well  
Caterpillar meditates on being butterfly etc.

⑦ Animals + their young  
Sounds that different animals make

⑧ Every thing comes from earth; how a seed grows.

⑨ Parts of body external + some internal, Conclusion - who am I? I am not parts of the body but who am I? 5 senses + how to engage them in Krsna's service.

⑩ How rain falls. Draw on chalkboard. Use a small pot of boiling water to show evaporation + hold a mirror over steam to show condensation.

⑪ Transportation on land, sea, air and in + other planes

⑫ How Telephone was invented + systems of communication before: Drumbats, smoke signals, sending a runner, carrying pigeon

⑬

As far as possible, tell Krsna conscious stories about these topics.
