

THE HONEST THIEVES

INSTRUCTIVE STORIES FROM
SRILA PRABHUPADA

After stealing some property

Take out all the stuff

Yes master

Go and call everyone

A group of thieves assembled together

Let us divide this booty
honestly and religiously

MORAL :

They are thieves. What is the question of honesty? Similarly, scientists say, "Whatever cannot be proven by science is not a fact." But this is a reflective statement, because this criterion of truth cannot itself be proven by science. The above statement cancels itself out by its own condition.
