

THE MAN WHO WANTED TO TASTE SUGARCANE

A man once told his friend

Sugar-cane tastes
nice and sweet....

.....when you chew it
up with your teeth.

?

What is sugar-cane
how does it look like?

Please describe me how it looks like so that I can taste the sweetness of sugarcane.

Oh! You have never seen
a sugar-cane? It looks like a
bamboo log.

Then the foolish friend began to search for bamboo logs thinking of it to be sugar-cane.

Oh! I will relish the
sweetness of sugar-cane.

But he could never taste the sweetness.

MORAL :

Similarly, materialists are trying to find happiness and pleasure by enjoying the material body, but they find no real happiness or pleasure.

- Srila Prabhupada
